

AGRICULTURE

REAL-TIME DATA TO INCREASE YIELD, REDUCE COSTS

Extend your weather monitor across your entire property to ensure maximum harvest yields while minimizing crop damage risks.

YOUR WEATHER + DAVIS STATIONS SMART DECISIONS

Connect to your weather, where and when it's happening, with our weather stations and sensors. Designed for home, school, agricultural and industry applications, our high quality affordable equipment is built to last.

DISCOVER THE ADVANTAGES

Make irrigation decisions based on plant-water demand

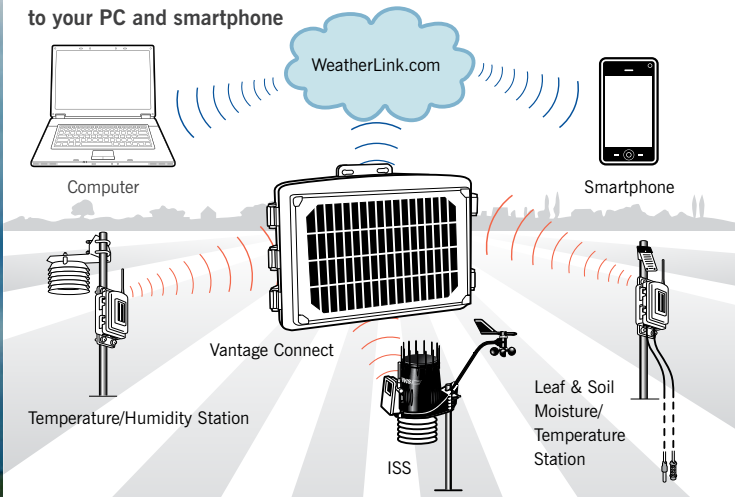

Monitor in-field evapotranspiration (ET) readings and use soil moisture probes to dramatically improve irrigation decision making.

Share data

Easily share your weather data and alerts with anyone who has Internet access, including field staff, farm consultants and your customers.

Vantage Connect moves data from multiple stations to your PC and smartphone
