

HOME AND GARDEN

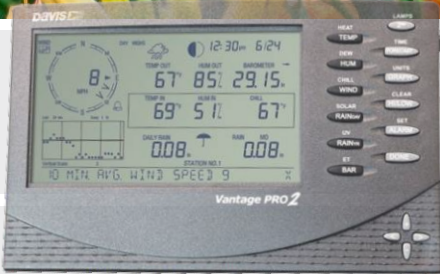

Know the weather where it matters most: in your own backyard!

YOUR WEATHER + DAVIS STATIONS

SMART DECISIONS

Connect to your weather, where and when it's happening, with our weather stations and sensors. Designed for home, school, agricultural and industry applications, our high quality affordable equipment is built to last.

DISCOVER THE ADVANTAGES

Water wisely

Add a Soil Moisture station to your Vantage Pro2 and know when and how much to irrigate to keep your flowers blooming, your lawn green, and your tomatoes prize-winning!

Gardener's Best Friend

Set up a Vantage Pro2 near your planting beds to know exactly how the weather will affect them. You'll be able to add extra waterings when temperatures rise.

Community Weather Watcher

Keep your family, neighbors, community and NOAA updated on the weather in your neighborhood. Set WeatherlinkIP to automatically upload your data to the weatherlink server.

Analyze data to optimize growing

Compare weather data from season to season, year to year.

Get alarms for extreme conditions

Set alarms for UV or high winds. You'll know when to protect your plants from damage.
